PROGRAMS

Zoom Q&A | Grades K-8

Jeff connects with students virtually, answering questions about the writing life and how he tackles the complicated (but thrilling) writing process. Works especially well with reluctant writers.

Writer's Workshop | Grades K-2

Jeff reads the Golden Sower-nominated "Have You Seen Mary?", then introduces his 7 Question Words: Who, What, When, Where, How, Why, and Can. Students start building stories within minutes.

Writer's Workshop | Grades 3-5

Starting with an excerpt from "The Legend of Donnie Bats," Jeff walks students through his 7 Question Words, then layers in drawing, storyboarding, and a technique called "Once Upon a Time" to tackle writing's hardest challenge: getting started.

Author Q&A | Grades K-8

Jeff draws on 20 years of working with student writers to give an authentic, story-driven look at the life of an author.

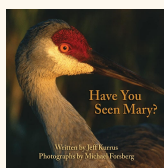

Photography Workshop | Grades 6-8

Jeff shares 20 years of experience as a professional outdoor photographer for the award-winning Nebraskaland Magazine. Students learn the basics of composition, aperture, and shutter speed, plus photography's most important tool: an alarm clock.

WHAT JEFF NEEDS

Not much. A whiteboard helps, but he's hosted plenty of classes outdoors. As long as he has his timer, your students will write -- and have fun doing it. For assemblies, a microphone is nice, but his voice can fill an auditorium.
